## MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Jefferson County Emergency Communications District, we offer readers of the District's financial statement this narrative overview and analysis of the District's performance during the fiscal years ending June 30, 2024, and June 30, 2023. Please read it in conjunction with the District's financial statements, which follow this section.

### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report includes this management's discussion and analysis report, the independent auditor's report and the basic financial statements of the District. The financial statements also include notes that explain in more detail some of the information in the financial statements.

### REQUIRED FINANCIAL STATEMENTS

The financial statements of the District report information of the District using accounting methods similar to those used by private sector companies. These statements offer both short-term and long-term financial information about its activities. The statement of net position includes all the District's assets and liabilities and provides information about where the District has invested its resources (assets) and the obligations to the District's creditors (liabilities).

All of the current year's revenues and expenses are accounted for in the Statement of Revenues, Expenses, and Changes in Net Position. This statement measures the success of the District's operations over the past year and can be used to determine whether the District has successfully recovered all its costs through surcharges and fees.

The final required financial statement is the Statement of Cash Flows. The statement reports cash receipts, cash payments, and net changes in cash resulting from operating, investing, and financing activities and provides answers to such questions as where did cash come from, what was cash used for, and what was the change in the cash balance during the reporting period.

### FINANCIAL ANALYSIS OF THE DISTRICT

One of the most important questions asked about the District's finances is: "Is the District better off or worse off as a result of this year's activities?" The Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Net Position reports information about the net position of the District and the changes in it. One can think of the District's net position – the difference between assets and liabilities – as one way to measure financial health or financial position. Over time, increases or decreases in the District's net position is one indicator of whether its financial health is improving or deteriorating. A summary of the District's net position and changes in it is presented as Table 1 on page 5.

## **ANALYSIS OF FINANCIAL POSITION AND RESULTS OF OPERATIONS**

As can be seen from Table 2 page 6, the District's net position has decreased by \$59,519 during the year end June 30, 2024. Revenues increased \$76,756. Total expenses increased \$137,476. The administrative staff and employees continue to remain diligent and cost conscious.

### **THE DISTRICT'S NET POSITION**

The District completed the year ended June 30, 2024, with a net position of 1,784,153, which is \$59,519 less than the prior year's ending net position of \$1,843,672.

The District completed the year ended June 30, 2023, with a net position of \$1,843,672 which is \$1,201 more than the prior year's ending net position of \$1,842,471.

### **BUDGETARY HIGHLIGHTS**

The District adopts an annual operating budget, which includes proposed expenses and the means for paying these expenses. As conditions change during the year the budget may be amended to prevent budget overruns.

All telephone surcharge revenue is now remitted by the dial tone providers directly to the State. A Base Funding amount was established by the TECB for each of Tennessee's one hundred (100) ECDs and is based upon residential and business line-counts in 2012. Jefferson County's Base Funding was set at \$702,786 for June 30, 2024, and \$702,786 for June 30, 2023.

Total expenditures were \$72,261 less than budgeted with budget categories remaining in line for the year ended June 30, 2024.

Total expenditures were \$119,870 less than budgeted with budget categories remaining in line for the year ended June 30, 2023.

### **CAPITAL ASSETS**

The District's investments in capital assets amount to \$1,520,583 with accumulated depreciation of \$1,077,379 for the year ended June 30, 2024. Capital assets include office equipment and furniture, operating equipment, communications equipment, computer software, and vehicle(s).

The District's investment in capital assets amounted to \$1,347,422 with accumulated depreciation of \$954,700 for the year ended June 30, 2023. Capital assets include office equipment and furniture, operating equipment, communications equipment, computer software, and vehicle(s).

## **ECONOMIC FACTORS AND FUTURE NEEDS**

Prior to 2015, the main economic factor which faced the Jefferson County Emergency Communications District had been the continued fluctuation in revenue generated from landline, wireless, and VoIP telephones. The '911 Funding Modernization and IP Transition Act of 2014' became law on January 1, 2015, and set a state-wide surcharge of \$1.16 for all services (landline, cellular, VoIP, and pre-paid); a surcharge based upon revenue received by ECDs in 2012. This legislation eliminated the State ECB's use of depreciation costs in determining whether or not an ECD is 'financially distressed,' and also eliminated five (5) State ECB funding streams for operational, equipment purchase, and training programs.

The State ECB exercised its option to seek a restoration of the state-wide surcharge to \$1.50 for all services (landline, cellular, VoIP, and pre-paid); a move that required approval of a Joint Resolution of the TN General Assembly. The General Assembly passed the Joint Resolution, and the restored rate went into effect on January 1, 2021.

Upgrades and enhancements to the ECD's telephone, dispatching, radio, mapping, logging, and other areas that have been made over the past several years move the ECD closer to the realization of being a next-generation (NG-911) center.

Long-term financial planning for the District will require continued discussions related to the District's operational and administrative staffing needs and the service delivery expectations of our client agencies. Short-term focus will remain on sustaining operations and maintain, to the best of our ability, the quality of dispatch services the public has come to expect. As the ability of more ways to connect 9-1-1 increases, maintaining this quality will be an ever-present challenge.

Respectfully,

Justin Crowther  
Executive Director

<b>Total Net Position</b>	<u><u>1,784,153</u></u>	<u><u>1,843,672</u></u>	<u><u>(59,519)</u></u>

One way to measure financial health of a company is to look at its increases or decreases in net position over time. Increases in net position, in general, are signs that a company's financial health is improving. Decreases may indicate that its financial health is deteriorating. However, you will need to also consider non-financial factors such as economic conditions, service growth, and legislative mandates.

Jefferson County Emergency Communications District's total net position decreased \$59,519 from last year.

## INDEPENDENT AUDITOR'S REPORT

Board of Directors  
Jefferson County Emergency Communications District  
Jefferson City, Tennessee 37760

### Report on the Audit of the Financial Statements

#### Opinion

We have audited the financial statements of Jefferson County Emergency Communications District, a component unit of Jefferson County, Tennessee, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise Jefferson County Emergency Communications District's financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Jefferson County Emergency Communications District as of June 30, 2024, and the changes in financial position and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (GAS), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Jefferson County Emergency Communications District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Jefferson County Emergency Communications District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and GAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and GAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Jefferson County Emergency Communications District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Jefferson County Emergency Communications District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 2 through 6 and pension schedules on pages 25 through 27 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Supplementary Information**

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Jefferson County Emergency Communications District's basic financial statements. The statement of revenue, expenses, and changes in net position – actual and budget on pages 28-30, schedule of detailed expenses on pages 31-32, schedules of lease obligations on pages 33-34 are presented for purposes of additional analysis and are not a required part of the financial statements.

The statement of revenue, expenses, and changes in net position – actual and budget on pages 28-30, schedule of detailed expenses on pages 31-32, schedules of lease obligations on pages 33-34 is the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the statement of revenue, expenses, and changes in net position – actual and budget, schedule of detailed expenses, and lease obligation schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### **Other Information**

Management is responsible for the other information included in the annual financial report. The other information comprises the roster of officials on page 1 but does not include the basic financial statements and our auditor's report thereon. Our opinion on the basic financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

#### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated November 7, 2024, on our consideration of Jefferson County Emergency Communications District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Jefferson County Emergency Communications District's internal control over financial reporting and compliance.

# JEFFERSON COUNTY EMERGENCY COMMUNICATIONS DISTRICT

## NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

---

### NOTE 1 – NATURE OF THE ORGANIZATION

The District was established by the County for the purpose of enhancing "911" and selective routing services under T.C.A. 7-86-101 through 7-86-117 "Emergency Communications District Law.". The District is a component unit of Jefferson County, Tennessee. The District receives a significant portion of its income from the tax revenues of Jefferson County. Also, Jefferson County's legislative body approves board members and debt issues of Jefferson County Emergency Communications District

The criteria for including organizations as component units within a County's reporting entity, as set forth in Section 2100 of GASB's *Codification of Governmental Accounting and Financial Reporting Standards*, include whether:

- the organization is legally separate (can sue and be sued in its own name)
- the County appoints a voting majority of the organization's board
- the County is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the County
- there is a fiscal dependency by the organization on the County

### NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

- A. Basis of accounting – Accrual.  
Revenue is recognized when earned and expenses are recorded when incurred.
- B. Fund type – Proprietary.
- C. For purposes of the statement of cash flows, the District considered all highly liquid investments with maturities of three months or less when purchased to be cash equivalents.
- D. Intangible assets – With the implementation of GASB Statement No. 87, *Leases*, a lease meeting the criteria of this statement requires the lessee to recognize a lease liability and an intangible right-to-use asset. The intangible right-to-use asset is amortized over the life of the lease and presented as amortization expense in the statement of revenues, expenses, and changes in net position.

**NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**E. Capital assets and depreciation:**

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, which range from 5 to 39 years. The District’s capitalization threshold is set at \$5,000 per unit cost. Interest costs incurred on financing during the construction or installation period of capital assets are expensed as incurred. For the year under review, there was no interest expense pertaining to construction or installation of capital assets. Capital assets consist of the following:

June 30, 2024	Beginning Balance	Increases	Decreases	Ending Balance	Accumulated Depreciation & Amortization	Net Capital Assets

- F. Use of estimates** - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates. The useful lives of the capital assets of the District are such estimates.
- G. Revenue recognition** - Measurement focus is a term used to describe “which” transactions are recorded within the financial statements. The proprietary fund is accounted for using the “economic resources” measurement focus. Accordingly, all assets and liabilities (whether current or noncurrent) are included on the statement of net position. The statement of revenues, expenses and changes in net position presents increases (revenues) and decreases (expenses) in total net position.

**NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses of the district generally result from the primary operations of the district. The operating revenues of the district include base funding authorized by TCA § 7-86-303, excess funding authorized by TCA § 7-86-303, and other miscellaneous operating revenues. Operating expenses include the costs to provide emergency communication services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied. Proprietary funds utilize the accrual basis of accounting, whereby revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred.

- H. Budgetary principles – In accordance with TCA § 7-86-120, prior to the beginning of the fiscal year, the Board of Directors adopts an annual budget. All revisions must be approved by the Board. All annual appropriations lapse at fiscal year-end. Budgetary control is at the line-item level. The District prepares its budget on a basis of accounting that differs from accounting principles generally accepted in the United States of America (GAAP). The major difference between the budgetary basis of accounting and GAAP is that encumbrances are recorded as the equivalent of expenditures (budget) as opposed to a reservation of fund balance (GAAP). At June 30, 2024, the District had no encumbrances.
- I. Restricted and unrestricted resources – When both restricted and unrestricted resources are available for use, it is the government’s policy to use restricted resources first, then unrestricted resources as they are needed.
- J. Pensions – For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of Jefferson County Emergency Communications District’s participation in the Public Employee Retirement Plan of the Tennessee Consolidated Retirement System (TCRS), and additions to/deductions from Jefferson County Emergency Communications District’s fiduciary net position have been determined on the same basis as they are reported by the TCRS for the Public Employee Retirement Plan. For this purpose, benefits (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms of the Public Employee Retirement Plan of the TCRS. Investments are reported at fair value.

**NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)**

- K. Leases – The District follows GASB Statement No. 87, *Leases*. The statement establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

**NOTE 3 – DEPOSITS**

The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Custodial Credit Risk – Deposits – In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. As of June 30, 2024, the District had no exposure to custodial credit risk as its deposits were either insured by the FDIC or collateralized with securities held by the State of Tennessee Bank Collateral Pool as required by state statutes.

**NOTE 4 – COMPENSATED ABSENCES**

**Annual leave**

Regular full-time employees accrue one day of vacation per month. After five years of service, employees accrue one and one-half days of vacation per month. Employees on vacation are paid at a regular rate of pay during such leave. Employees may accrue annual vacation leave up to a maximum of the days earned for the prior service year. Unpaid vacation leave totaled \$36,377 for the year ended June 30, 2024.

**Sick leave**

Sick leave is earned by regular full-time employees at the rate of one day per month. Employees may accumulate sick leave without a maximum. Accumulated sick leave does not vest for payment at termination, however; if the employee retires such accumulated sick leave counts as time of service under the District's participation in the TCRS Pension Plan.

**NOTE 5 – PENSION PLAN INFORMATION**

**General Information about the Pension Plan**

**Plan Description** – Employees of Jefferson County Emergency Communications District are provided a defined benefit pension plan through the Public Employee Retirement Plan, an agent multiple-employer pension plan administered by the TCRS. The TCRS was created by state statute under Tennessee Code Annotated, Title 8, Chapters 34-37. The TCRS Board of Trustees is responsible for the proper operation and administration of the TCRS. The Tennessee Treasury Department, an agency in the legislative branch of state government, administers the plans of the TCRS. The TCRS issues a publicly available financial report that can be obtained at <https://treasury.tn.gov/Retirement/Boards-and-Governance/Reporting-and-Investment-Policies>.

**Benefits Provided** – Tennessee Code Annotated, Title 8, Chapters 34-37, establishes the benefit terms and can be amended only by the Tennessee General Assembly. The chief legislative body may adopt the benefit terms permitted by statute. Members are eligible to retire with an unreduced benefit at age 60 with 5 years of service credit or after 30 years of service credit regardless of age. Benefits are determined by a formula using the member’s highest five consecutive year average compensation and the member’s service credit. Reduced benefits for early retirement are available at age 55 and vested. Members vest with five years of service credit. Service-related disability benefits are provided regardless of length of service. Five years of service is required for nonservice-related disability eligibility. The service-related and nonservice-related disability benefits are determined in the same manner as a service retirement benefit but are reduced 10 percent and include projected service credits. A variety of death benefits are available under various eligibility criteria.

Member and beneficiary annuitants are entitled to automatic cost of living adjustments (COLAs) after retirement. A COLA is granted each July for annuitants retired prior to the 2nd of July of the previous year. The COLA is based on the change in the consumer price index (CPI) during the prior calendar year, capped at 3 percent, and applied to the current benefit. No COLA is granted if the change in the CPI is less than one-half percent. A one percent COLA is granted if the CPI change is between one-half percent and one percent. A member who leaves employment may withdraw their employee contributions, plus any accumulated interest.

**Employees Covered by Benefit Terms** – At the measurement date of June 30, 2023, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	3
Inactive employees entitled to but not yet receiving benefits	35
Active employees	<u>23</u>
Total Employees	<u><u>61</u></u>

**NOTE 5 – PENSION PLAN INFORMATION (Continued)**

**Contributions** – Contributions for employees are established in the statutes governing the TCRS and may only be changed by the Tennessee General Assembly. Employees contribute 5 percent of salary. Jefferson County Emergency Communications District makes employer contributions at the rate set by the Board of Trustees as determined by an actuarial valuation. For the year ended June 30, 2024, the employer contributions for Jefferson County Emergency Communications District were \$90,410 based on a rate of 7.04 percent of covered payroll. By law, employer contributions are required to be paid. The TCRS may intercept Jefferson County Emergency Communications District’s state shared taxes if required employer contributions are not remitted. The employer’s Actuarially Determined Contributions (ADC) and member contributions are expected to finance the costs of benefits earned by members during the year, the cost of administration, as well as an amortized portion of any unfunded liability.

**Net Pension Liability (Asset)**

**Pension liabilities (assets)** - Jefferson County Emergency Communications District’s net pension liability (asset) was measured as of June 30, 2023, and the total pension liability used to calculate net pension liability (asset) was determined by an actuarial valuation as of that date.

**Actuarial assumptions** – The total pension liability as of the June 30, 2023, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.25 percent
Salary Increases	Graded salary range from 8.72 to 3.44 percent based on age, including inflation, averaging 4.00 percent
Investment rate of return	6.75 percent, net of pension plan investment expenses, including inflation
Cost of living adjustments	2.125 percent

Mortality rates were based on actual experience including an adjustment for some anticipated improvement.

The actuarial assumptions used in the June 30, 2023, actuarial valuation are based on the results of an actuarial experience study performed for the period July 1, 2016, through June 30, 2020. The demographic assumptions were adjusted to more closely reflect actual and expected future experience.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

**NOTE 5 – PENSION PLAN INFORMATION (Continued)**

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees in conjunction with the June 30, 2020, actuarial experience study. A blend of future capital market projections and historical market returns was used in a building-block method in which a best-estimate of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) is developed for each major asset class. These best estimates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.25 percent. The best estimates of geometric real rates of return and the TCRS investment policy target asset allocation for each major asset class are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return	Target Allocations
U.S. Equity	4.88%	31%
Developed market international equity	5.37%	14%
Emerging market international equity	6.09%	4%
Private equity and strategic lending	6.57%	20%
U.S. fixed income	1.20%	20%
Real estate	4.38%	10%
Short-term securities	0.00%	1%
		100%

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees as 6.75 percent based on a blending of the factors described above.

**Discount rate** – The discount rate used to measure the total pension liability was 6.75 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current rate and that contributions from Jefferson County Emergency Communications District will be made at the actuarially determined contribution rate pursuant to an actuarial valuation in accordance with the funding policy of the TCRS Board of Trustees and as required to be paid by state statute. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

## NOTES TO SCHEDULE

JUNE 30, 2024

---

**Valuation date** - Actuarially determined contribution rates for fiscal year 2024 were calculated based on the June 30, 2022, actuarial valuation.

*Methods and assumptions used to determine contribution rates:*

Actuarial cost method	Entry Age Normal
Amortization method	Level dollar, closed (not to exceed 20 years)
Remaining amortization period	Varies by Year
Asset valuation	10-year smoothed within a 20 percent corridor to market value
Inflation	2.25 percent
Salary increases	Graded salary range from 8.72 to 3.44 percent based on age, including inflation, averaging 4.00 percent
Investment rate of return	6.75 percent, net of pension plan investment expenses, including inflation
Retirement Age	Pattern of retirement determined by experience study
Mortality	Customized table based on actual experience including an adjustment for some anticipated improvement
Cost of living adjustments	2.125 percent

*Changes of assumptions* – In 2021, the following assumptions were changed: decreased inflation rate from 2.50 percent to 2.25 percent; decreased the investment rate of return from 7.25 percent to 6.75 percent; decreased the cost-of-living adjustment from 2.25 percent to 2.125 percent; and modified mortality assumptions. In 2017, the following assumptions were changed: decreased inflation rate from 3.00 percent to 2.50 percent; decreased the investment rate of return from 7.50 percent to 7.25 percent; decreased the cost-of-living adjustment from 2.50 percent to 2.25 percent; decreased salary growth graded ranges from an average of 4.25 percent to an average of 4.00 percent; and modified mortality assumptions.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Directors  
Jefferson County Emergency Communications District  
Jefferson City, Tennessee

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of Jefferson County Emergency Communications District, a component unit of Jefferson County, Tennessee, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Jefferson County Emergency Communications District's basic financial statements, and have issued our report thereon dated November 15, 2024.

### *Report on Internal Control Over Financial Reporting*

In planning and performing our audit of the financial statements, we considered Jefferson County Emergency Communications District's internal control over financial reporting (internal control) as a basis for designing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Jefferson County Emergency Communications District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Jefferson County Emergency Communications District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of Jefferson County Emergency Communications District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

### ***Report on Compliance and Other Matters***

As part of obtaining reasonable assurance about whether Jefferson County Emergency Communications District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Jefferson County Emergency Communications District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Jefferson County Emergency Communications District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
